

KHANT LIN NYAN

FRONTEND DEVELOPER

www.khantlinnyan.vercel.app | khantlinnyan.dev@gmail.com | Tarmwe Township, Yangon, Myanmar

SUMMARY

Full-Stack Developer with 3+ years of hands-on experience delivering scalable, user-centric web and backend systems using React, Next.js, Express.js, PostgreSQL, and AWS. Proven track record of shipping live products, optimizing performance, and contributing to cross-functional teams. Known for clear communication, clean code, and fast execution under pressure. Winner of multiple hackathons including Startup Weekend Yangon and LaraCamp.

PROFESSIONAL EXPERIENCE

Hysan Education — Fullstack Developer

Aug 2024 – Present

- Led the backend development of a custom School Management System and Learning Management System for a multi-campus education provider.
- Engineered relational database using PostgreSQL and TypeORM, supporting 1,000+ students across 5+ campuses.
- Developed robust access control system for SuperAdmins, Teachers, and Students.
- Built an automated class scheduling feature integrated with LMS and attendance tracking tools.
- System improved administrative efficiency and learning engagement across campuses.

TeeHtwi — Frontend Developer

Jul 2023 – Present

- Collaborated with senior developers to deliver multiple frontend projects using React and Next.js.
- Built reusable component with libraries, integrated Figma designs, and ensured SSR compatibility.
- Contributed to the launch of Kalasa Art Gallery, enabling users to browse, purchase, and manage artworks online.
- Maintained production stability, addressed bugs, and improved performance post-launch.
- <https://www.kalasa.gallery>
